An introduction to the

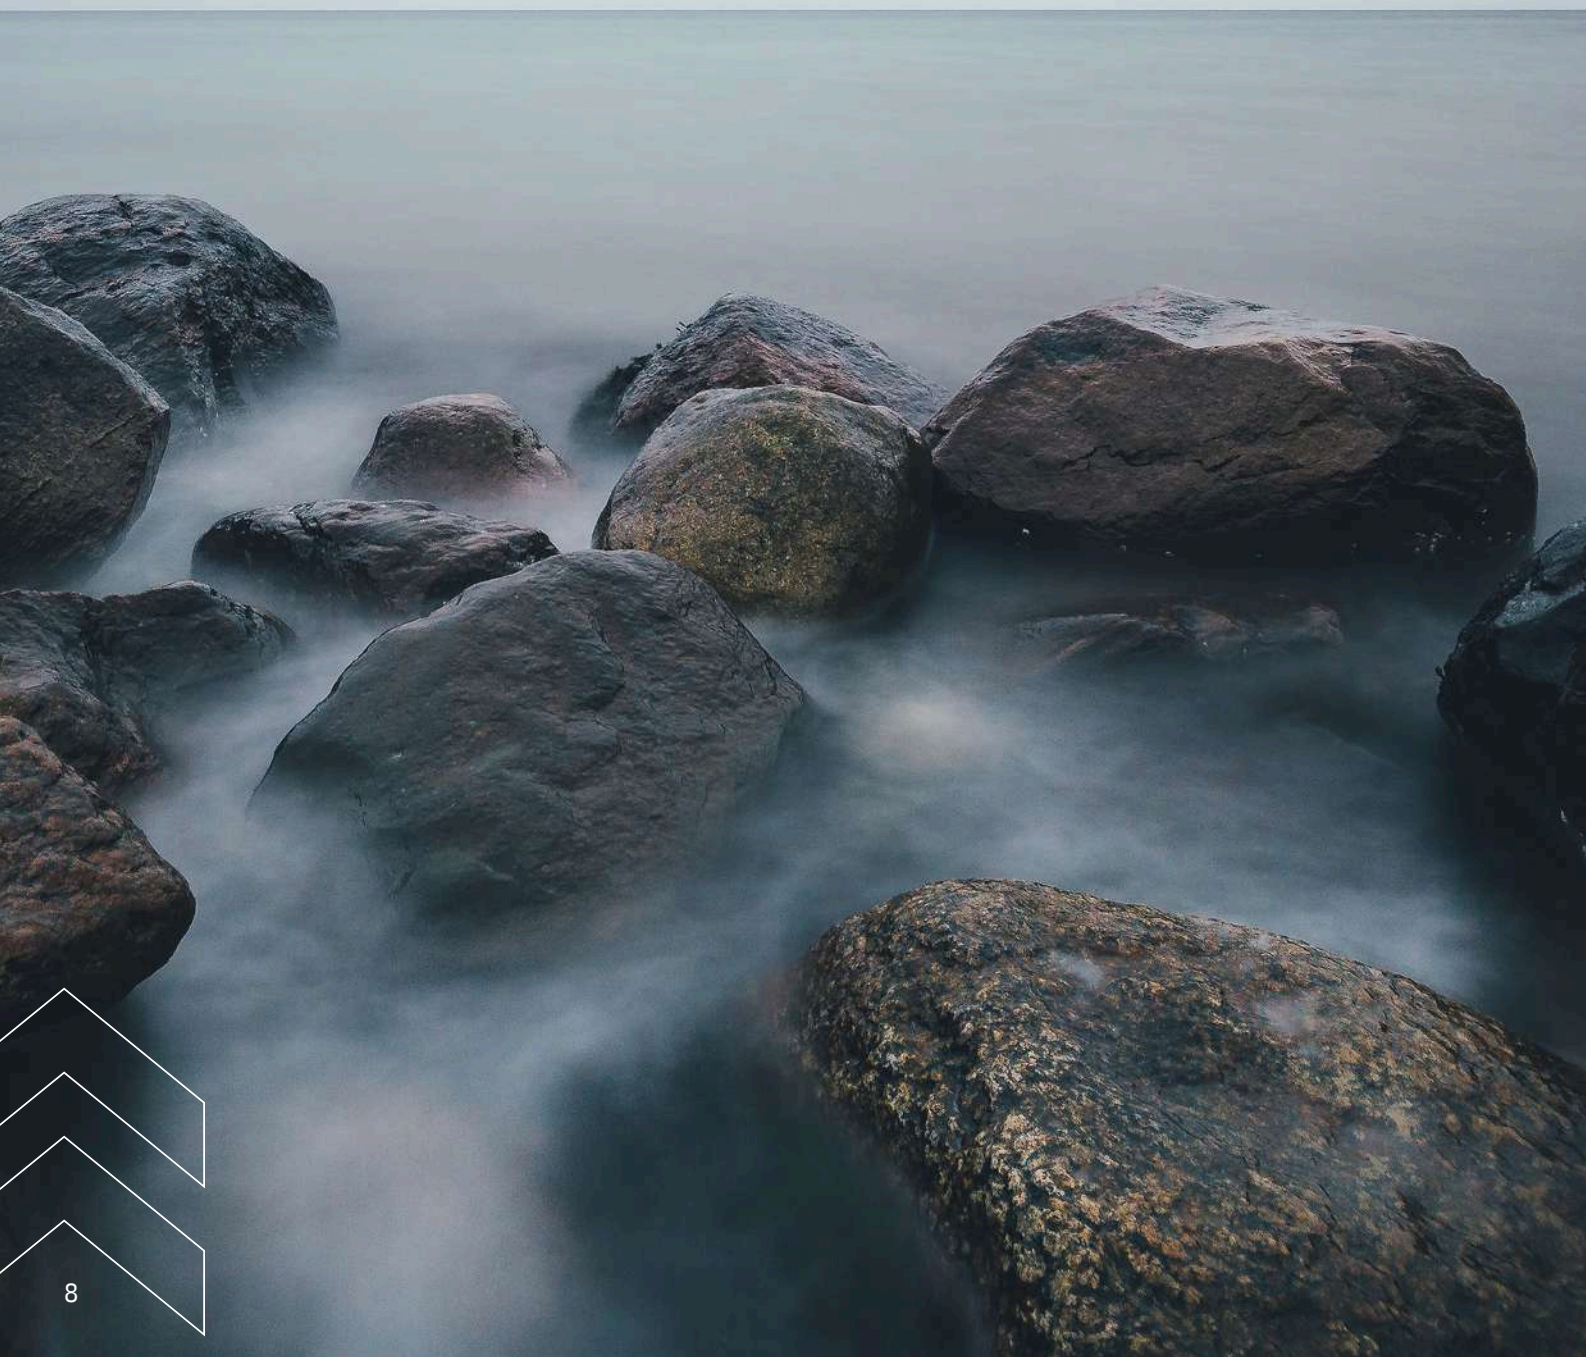

ROMAN COLLECTION

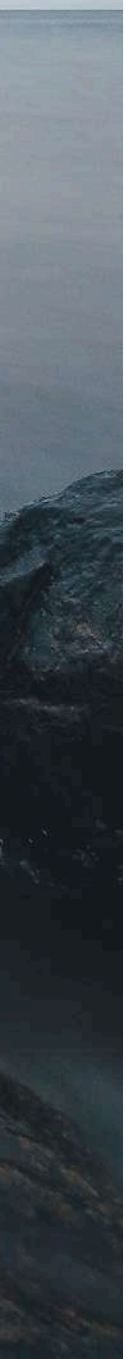

- Taking inspirations from the natural world, Roman our brand-new tile collection featuring naturalistic yet minimalist designs, is the safe, elegant, and sustainable solution for the perfect organic, harmonious living space. The simple, gentle yet life-like vein movements in this collection not only enhance the building's unique characters, but also bring a warm and welcoming touch that reminds one of home.

- Innovative, state-of-the-art technology ensures that Roman is a durable, eco-friendly product line that can stand the test of time. Discover how the natural earth tones in the Roman Collection effortlessly transform your home into a warm, sophisticated and timeless oasis.

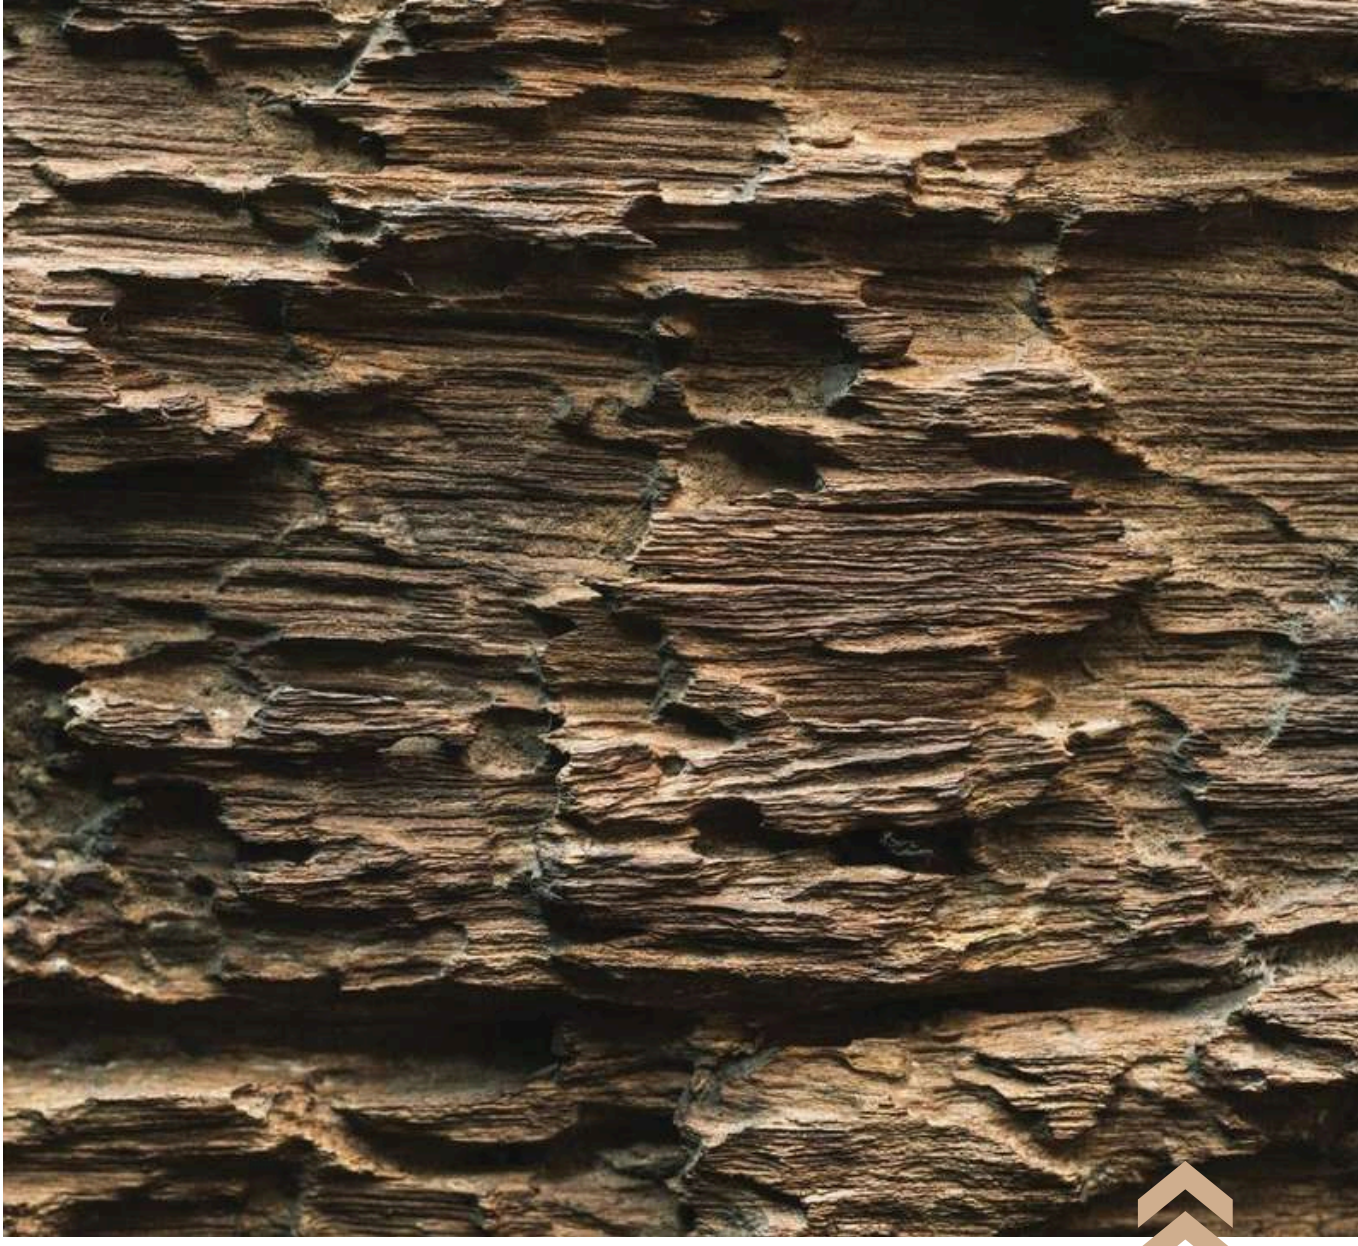

General properties

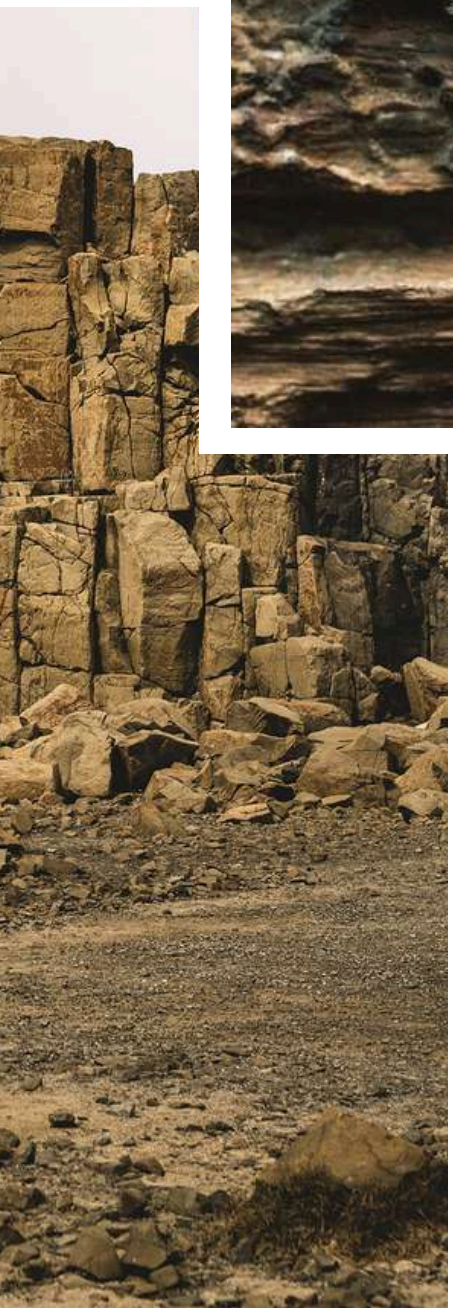

Roman is one of our color-body porcelain tile collections, with a variety of finishes ranging from matte to textured to symmetrical wavy embossings. Roman offers outstanding technical performances, including but not limited to:

- High hardness: Roman's color-body technology makes it resistant to cracking and able to withstand considerable impacts.
- Innovative surface technology: Roman incorporates crystal coating into its dry-glaze layer that increases the product's bending strength and scratch-resistance. This also makes Roman more durable and wearproof than regular porcelain tiles.
- Excellent waterproofness: Roman's low water absorption rate (<0.5%) makes them virtually waterproof and prevents the formation of moisture, mold, or mildew.
- Anti-slip: Featuring textured to structured matte surfaces that offers premium anti-slip protection, Roman is the perfect safety solution for creating active spaces that anybody can live in.
- High aesthetics: Roman color-body tiles come in a variety of colors, designs and surface effects, making them the ideal choices to fulfill any user's aesthetic dreams. They can be used for virtually all interior floor and wall applications, from living rooms and bedroom to bathrooms and kitchens.

- The products from Roman Collection are not only beautiful but also long-lasting, demonstrating a commitment to sustainable quality and consistency in design for each project.
- The goal of the Roman Collection is to capture the organic yet minimalist, refreshing yet timeless elegance of nature. The simplicity of each design in this collection complements a variety of spaces and interior decoration styles. Inspired by the natural color of the earth – from sedimentary rock to desert sand – Roman showcases a minimalist beauty that is in harmony with the natural world.
- The natural earth tones in the Roman collection are versatile and able to enhance any layout and design styles, giving boundless room for creativity when it comes to interior design and architectural planning.
- The Roman Collection is a beautiful, high-performing, durable collection in our luxury tile offerings. It showcases our commitment in producing industry-proven, high-quality, sustainable surfaces for any residential or commercial project.

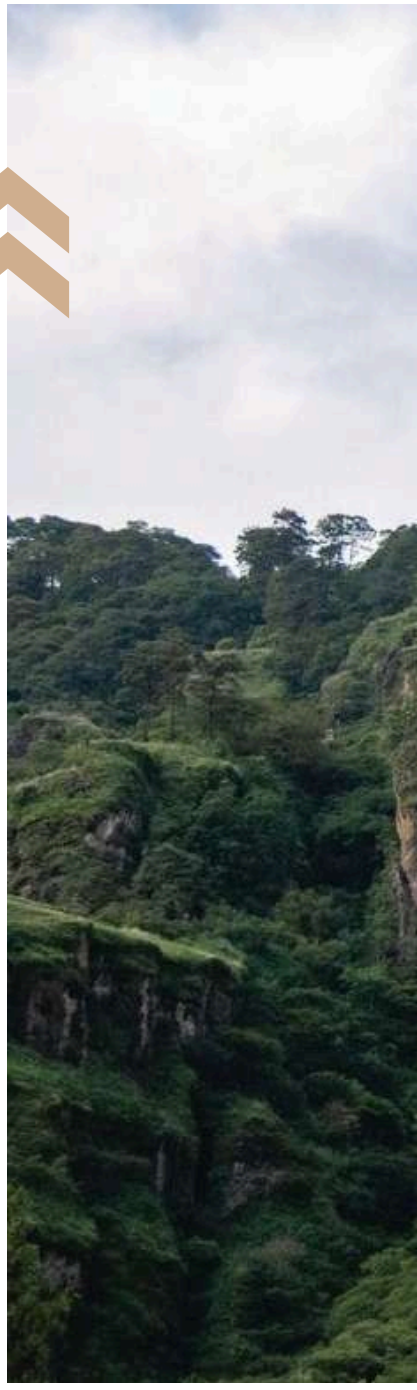

TIMELESS & SUSTAINABILITY

conveyed through a minimalist elegance

BRINGING HARMONY
TO LIVED-IN SPACE

A sub-collection under Roman, Harmony takes inspiration from the natural beauty of sandstone. With its cool tones and organic designs, Harmony complements a wide range of interior décor applications to foster an open and harmonious atmosphere.

HARMONY

Harmony

HARMONY
Harmonious

Harmony's subtle Sandstone vein movements add an organic and refined elegance to the living space. These veins are beautifully integrated, resulting in an overall unified look that is both balanced yet rich, simple yet sophisticated.

THE BEAUTY OF MINIMALISM

Scandi sub-collection’s minimalist designs are inspired by the beauty of raw concrete and terracotta. With a matte, slightly textured surface and a wide selection of colors, Scandi embodies modern luxury and convenience.

SCANDI

Scandi

S CANDI

The beauty of minimalism

Scandi is the standard of minimalist beauty for modern living spaces. It creates an impression of lightness and relaxation by using matte, slightly rough surface that resembles concrete and a variety of earthy colors. The rich warm hues of Scandi may be used for a variety of purposes, including tiling gyms, patios, stores, or creating unique pictures on walls and floors. Scandi embodies minimalist elegance that is also highly liberating, making it the top pick for customers who prefer a simple, comfortable lifestyle.

What does

THE ROMAN COLLECTION

BRING TO THE TABLE?

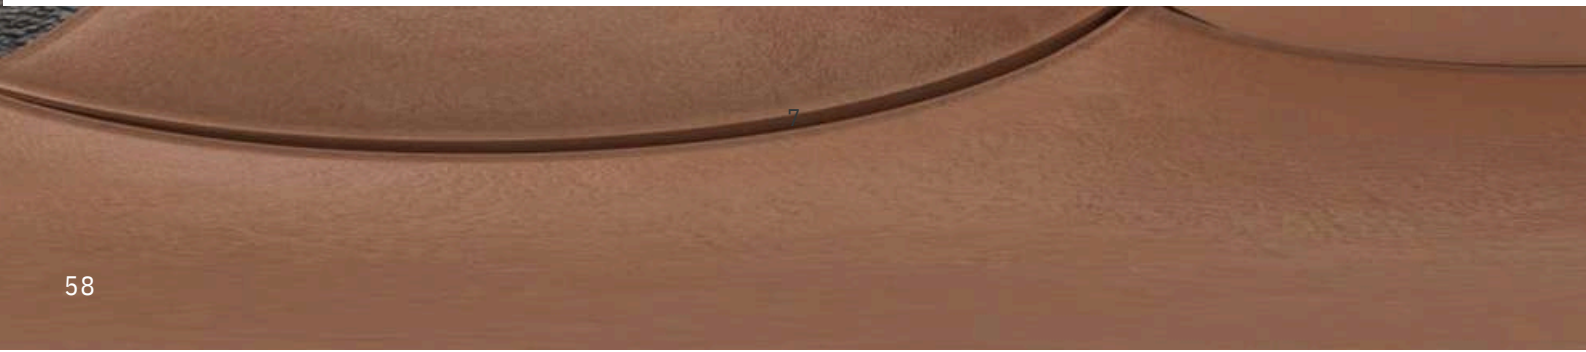

- One-of-a-kind: Roman is unlike any other tile collection under our offerings. From the alluring vividity of Travertine to the modern simplicity of Concrete, each vein type provides a one-of-a-kind experience that honors the unique characters of your home and the architecture that gives it its history.
- High applicability: Roman tiles are suited for a wide range of interior design styles and can adapt to many different areas. Customers can easily choose products that suit their preferences and styles thanks to the flexibility and versatility of Roman's stone-like surfaces.
- Premium quality: Roman is more than just a decorative piece; it displays our commitment to product excellence. This collection is created using cutting-edge technology and high-quality materials to ensure that every customer may own a unique work of art that is not only beautiful but also safe, durable and long-lasting.

CARE & MAINTENANCE

DO	DON'T
• Keep tiles clean with basic cleaning of warm water and mild soap.	• Expose tiles to permanent inks or dyes.
• Use multi-purpose spray cleaner to remove soap scum, hard water stains and mildew.	• Use cleaning products containing acids, ammonia or other strong chemicals.
• Wipe tiles dry thoroughly after cleaning.	•Clean tiles with oil-based cleaners.
• Cover furnitures and table legs with protectors to prevent scratches.	• Put too much pressure on tiles.
• Choose products in compatible with grout to avoid damage.	
• Read the instructions on the packaging carefully.	
• Install tiles in the direction indicated by the arrow on the back of the product.
